ACRYLIC PAINTS (STANDARD PRE-MIXED)

ACRYLIC PAINTS

STANDARD ACRYLIC PAINTS

Our vast range of 120 (non-fading) durable acrylic paint range has been specially formulated to be used on all form of art projects. They have a thicker consistency, but not thick like the acrylic tube paints. All the colours in the Candi Art range have the same thickness (viscosity). Our colours range from pastel shades to strong vibrant colours.

The Candi Art Standard Acrylic Paints main colours are:

Main Colours	Candi Art Colours
White	Glacier
Black	Midnight
Red	Apple Red
Green	Gremlin Green
Blue	Aurelia
Yellow	Bumblebee

All the Candi Art Acrylic Paints can be pre-mixed with the high-quality Candi Art Pouring Medium and water. The Candi Art Pouring Medium has not been tested on other brands of acrylic paint.

POURING MEDIUM MIX RATIO : STANDARD ACRYLIC PAINTS

1 Part Candi Art Pouring Medium to 1 Part Candi Art Acrylic Paint (by volume)

Your flow should be about right for a "Dirty Pour", "Puddle Pour", etc.

Other techniques, like "Dutch Pour", require your acrylic paint to be thinner – this can be obtained by adding a tiny amount of water until you obtain the right consistency of the flow of your acrylic paint that you require.

Thicker paints may require the addition of more water.

If you prefer to add more Candi Art Pouring Medium to your acrylic paint, this will break-down the pigmentation of the acrylic paint and create cells / lacing.

METALLIC ACRYLIC PAINTS

Our range of metallic paints consists of 19 (non-fading) durable soft bodies (high flow and high sheen) paints. They have been specially formulated to be used on all forms of art projects. They should be used to highlight (accentuate) certain areas in your acrylic fluid art or artwork and should not be used on their own. Our metallic colours are vibrant and have a high sheen to them once dried.

ACRYLIC PAINTS

The Candi Art Metallic Acrylic Paints main colours are:

Main Colours	Candi Art Colours
White	Crete
Black	Shadow
Red	Fifinella
Green	Verdi
Blue	Vespa
Bronze	Deep Fried Tofu

All the Candi Art Acrylic Paints can be pre-mixed with the high-quality Candi Art Pouring Medium and water. The Candi Art Pouring Medium has not been tested on other brands of acrylic paint.

POURING MEDIUM MIX RATIO : METALLIC ACRYLIC PAINTS

The standard ratio is usually 1:1 (by volume). However, the acrylic metallic paint may require less Candi Art Pouring Medium.

1 Part Candi Art Pouring Medium to 1 Part Candi Art Acrylic Paint (by volume)

Your flow should be about right for a “Dirty Pour”, “Puddle Pour”, etc.

Other techniques, like “Dutch Pour”, require your acrylic paint to be thinner – this can be obtained by adding a tiny amount of water until you obtain the right consistency of the flow of your acrylic paint that you require.

Thicker paints may require the addition of more water.

If you prefer to add more Candi Art Pouring Medium to your acrylic paint, this will break-down the pigmentation of the acrylic paint and create cells / lacing.

PRE-MIXED ACRYLIC PAINTS

The Standard Acrylic Paints (120 colour range) and the Acrylic Metallic Paints (19 colour range), have all been pre-mixed for your convenience. They have been pre-mixed to obtain the correct consistency for your to use in your Acrylic Fluid Art. Other techniques may require a thinner flow and we suggest that you add a little water to obtain the consistency that you require.

KEY FEATURES

- Long lasting durability (1 year from date of purchase);
 - If stored and sealed correctly
- Low VOC
- Formaldehyde Free
